The 1980s Brought Major Growth to Charlottesville

This month as we take a look back at the 1980s in the lives of Residents and their Families, we will also look at the history of Charlottesville. With the addition of some major landmarks, it changed the course for many businesses in the City of Charlottesville and the County of Albemarle. Join us as we review in “Coffee & Conversation” and visit several locations on our Scenic Rides and scheduled outings. If you know someone who can share stories and a piece of history from the 1980s, let the Leisure & Enrichment Team know and they will schedule their visit.

Brookwood, Health & Wellness at Martha Jefferson House

The Brookwood Team has formed, so please welcome Physical Therapist Krisna Casino, Occupational Therapist Maureen Kennedy and Speech Therapist Deborah Ferreir to Martha Jefferson House. We trust with this amazing team of talented Therapists that you are ready to make “Health and Wellness” part of your daily life. As we continue to build the programs within, we are eager to hear from you and what you would like for Brookwood to be specifically for your needs. Brenda Knee, Director of Health & Wellness, is available at any time to meet with you one on one, or with your Family, to bring together a comprehensive plan for you.

Where Did “Brookwood” Originate?

The Founder of Martha Jefferson House was often named in printed materials as... Hunter Perry, of “Brookwood.” In an effort to continue to carry his name throughout The House, we have adopted Brookwood as the signature of the new Health & Wellness at Martha Jefferson House. We are looking forward to the OPEN HOUSE and Ribbon Cutting happening soon.
